STATE CAPITOL NEWS

By MELVIN LORD
(United Press Staff Correspondent)

SACRAMENTO, Sept. 19,—(UP)—With one or two minor exceptions all the logislative measures signed by Gov. Frank F. Merriam now are effective.

The acts became laws September 15, the end of the statutory period Approximately 800 new laws may be attributed to the 51st legislature but the average citizen will hear of only a few of them.

All of the acts carrying out the state's new tax program were urgency measures and became effective at the time they received executive approval.

To California's aged population the act liberalizing the state's old age security act was perhaps the most important piece of legislation.

Under this new law, needy persons 65 years of age or more are eligible to monthly pensions. The previous minimum age limit was 70 years. Maximum monthly payments were increased from $30 to $35.

A reduction of the residential requirement from 15 to nine years was contingent upon federal aid. Such aid was not available with failure of congress to pass the third deficiency bill.

Of all the legislative acts, only two were held up by referendum and will be voted upon by the people at the next general election in November, 1936.

In each case sufficient signatures were given petitioners to qualify the referendum against the proposed chain store tax and the proposed levy of 10 cents per pound on butter substitutes manufactured from foreign oils.

One other tax law will be effective January 1, 1936. It provides a state tax on automobiles at the rate of $1.75 per $100 market value, in lieu of local property taxes on vehicles. One-fourth of the money collected will be allocated to cities, one-eighth to counties and the remainder to the state to pay principal and interest on highway bonds.

State officials were jubilant when word was received here that President Roosevelt had given final approval for a federal grant of $20,000,000 to start work on the Central Valleys water project, long a dream of California engineers.

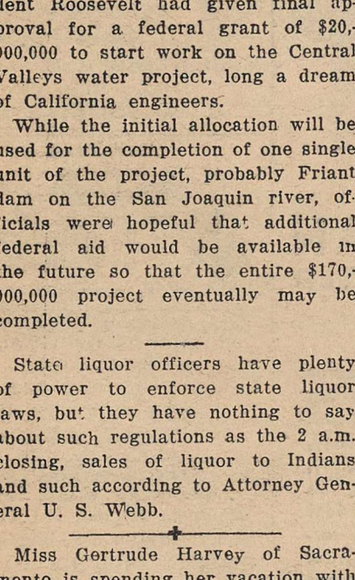
While the initial allocation will be used for the completion of one single unit of the project, probably Friant dam on the San Joaquin river, officials were hopeful that additional federal aid would be available in the future so that the entire $170,000,000 project eventually may be completed.

State liquor officers have plenty of power to enforce state liquor laws, but they have nothing to say about such regulations as the 2 a.m. closing, sales of liquor to Indians and such according to Attorney General U. S. Webb.

Miss Gertrude Harvey of Sacramento is spending her vacation with her mother Mrs. Hannah Harvey.

Mrs. G. V. Garner and daughter of Reno are visiting this week with Mrs. Karl Kiedhofer.

IN AUSTRALIAN POST



Brig. Gen. Sir Alexander Hore-Ruthven, an Englishman, is to succeed Sir Isaac Alfred Isaacs as governor general of the Commonwealth of Australia. The appointment was made by King George on the recommendation of Joseph Lyons, prime minister of Australia.

NEW ORGANIZATION ELECTS OFFICERS

Truckee Motion Picture Assn. to Promote the Filming of Pictures in This Vicinity and to Maintain a Service Bureau.

A meeting was held last Friday night by committees appointed by the Chamber of Commerce and the Lions Club and several business people for the purpose of forming an organization for the promation of motion picture companies in coming to Truckee and this vicinity for the filming of motion pictures.

The new organization is to be known as the Truckee Motion Picture Association and has as its officers, C. Edmunds, president, Moke Kielhofer, general manager, C. B. White, treasurer and Mrs. E. C. Bavier, secretary. The officers elected will appoint directors to head the various committees who will have charge of locations, transportation, housing, meals, labor supplies and accounting. These directors will select those who will serve with them on these committees.

In the past Truckee and vicinity had been one of the principal regions selected for the filming of winter scenes by the motion picture companies due to the exceptional scenery and the good snow conditions. This business has been lost and until last year when two companies were here for a few weeks no effort has been made to interest the motion picture companies in coming to Truckee. To secure this business for this region it is necessary to contact the motion picture companies and acquaint them with the advantages of this region and the service this organization will be in a position to give them.

Truckee and vicinity are situated on highways that are at all times open for travel which will facilitate the quick transportation of equipment and supplies and easy access can be had to all locations which may be selected. There is no reason that these companies should not return to this region for their summer and winter scenes providing they are properly contacted and are given the service they will require while here.

It is the plan of the new organization to assist the companies in securing supplies, labor and service and whatever they may need and eliminate the confusion and delay which has perhaps been experienced in the past when there was no one who would assume this responsibility. The officers believe this will not only be appreciated by the companies but by the business people in town who will have a place where they can list their services and merchandise and will eliminate unfair competition and assure everyone who supports the organization of a fair share of the business brought in.

The plans of the organization are very tentative and will call for much thought and study and as soon as the organization is completed the business people who are interested in this work will be asked to meet with the officers and directors and discuss the details.

The next meeting of the officers and directors will be held Friday evening when further organization plans will be discussed. The officers are very enthusiastic over the desirability that such an organization will have in furthering the motion picture business in Truckee and vicinity.

B. J. Gabhart To Be Transferred to Sacramento

B. J. Gabhart who is in charge of the Agriculturl quarantine station at the east entrance to town has been promoted to supervisor of truck inspection at Sacramento. The change will take effect on October 1st.

Arthur Marts of the Smith River station in Del Norte County will take the position left vacant by Mr. Gabhart.

PATRONIZE OUR ADVERTISERS

Michigan Beans Given President

Miss Della Wilson of Bad Axe, Mich., queen of the Michigan Bean fair, is shown at the White House holding a 17½ pound bag of Michigan pea beans which she presented to President Roosevelt.

TOWNSEND CLUB MEMBERSHIP NOW 235

The Truckee Townsend Club held its regular weekly meeting on Monday night in the Masonic Hall with a good attendance of members.

It was decided to hold all future meetings in the Methodist Church and President P. R. Nelson is completing arrangements for the use of the church.

The Truckee club now has a membership of 235 with new members signing up daily.

The state area officers are requesting the Truckee club to send in their monthly quota to assist in carrying on the Townsend movement. As only a small portion of the membership attends the regular meetings and upon these members fall the burden of donations, it was voted to ask all members of the club to contribute 10c per month to carry on the work. Roy Feathers, secretary of the club will accept all contributions.

Election Date Changed For School Trustees

There will be many changes in the school laws of the state by laws enacted by the last Legislature which are now in effect.

One of the new laws will change the election date for the office of school trustees. Trustees will be selected the first Friday in June of each year, and will take office the first of the following July. Candidates for school trustees will now file with the county superintendent of schools fifteen days before the election, instead of with the clerk of the board of trustees, as has formerly been done.

Truckee River Closes To Fishing Sept. 20.

The Division of Fish and Game have announced that the Truckee river from Lake Tahoe to the state line will be closed to fishing for the season on September 20th.

The river is closed due to low water conditions and in an effort to conserve the trout in the stream.

TAHOE PUMPING PLANS ABANDONED

Plans for pumping water from Lake Tahoe to supplement the flow of water in the Truckee River have been abandoned. Inability to obtain federal funds for the pumping, together with opposition from lake property owners prompted the decision. Necessity of pumping also was questioned.

Deer Hunters Out For Opening of Season

The deer hunters were out in full force on Monday with the opening of the one month season. Truckee and vicinity were well represented by those out the opening day. Scores of automobile parties have been in town getting supplies and passing through on their way to the many favorite hunting spots afforded in this region. Several parties of local hunters have gone to other parts of the state where they have hunted for several years.

It is reported that a larger number of hunting and deer licenses have been sold in town this year than ever before. Hunting supplies have been in great demand and is in excess of previous years.

Angelio Besio, high school student, had the honor of bringing in the first deer which he shot in the hills but a short distance from town. This was a four pointer.

There are several parties made up of local hunters who have not as yet been heard from, but those reported as having secured a deer are Frank Holt, Mel Thornton, Tony Ghirard, Oscar Schumacher, J. B. Maxson, and Pete Passinette. Parties at the Euer Ranch are reported to have shot seven.

Rep. Harry Englebright Returns From Washington

Congressman Harry L. Englebright has arrived at his home in Nevada City after spending the past eight months in Washington, where he participated in the longest congressional session since 1922.

Englebright stated that the session was a terrific grind with members of the House and Senate constantly working under pressure of the legislature program outlined by the President.

Second Party of Eastern Star Held

The second in the series of bridge parties being given by Truckee Chapter, Order of Eastern Star, was held in the chapter rooms last Tuesday evening with a large number present.

Prizes were awarded to Mrs. Marie Nelson, first and V. Mack, first and consolation to Mrs. Jennie Canady and G. F. Hofman. A cake was won by Mrs. Dan Smith.

Refreshments were served in conclusion.

The next party of the series will be held on October 15th.

Mrs. Louis Russi of Wheatland was a visitor in town on Monday.

Sheriff Barrett Killed In Auto Acciden

Sheriff Chas. W. Barrett of Markleeville, Alpine County, a widely known Superior California peace officer, was instantly killed last Friday in an automobile accident near Gardnerville, Nevada while returning from a business trip to Carson City. It is believed that he fell asleep and his car hit the curbing of a cement bridge.

Sheriff Barrett was the father of Ernest Barrett who was a traffic officer in this region for several years and of Vernon Barrett, junior registration clerk at the checking station.

He was one of the few remaining officers of the old school. He was elected first when a young man and was in his twenty-fifth consecutive year of service.

Sherrif Barrett was a frequent visitor in Truckee and had a number of friends in this region.

BEN COOPER SEEKS TO STAY FORECLOSURE

Ben Cooper local business man has commenced an action in the superior court under an act passed by the last legislature whereby under certain conditions, a party may be relieved from forfeiture under contracts for sale of real and personal property.

The petitioner recites that on August 28, 1928, he entered into a contract with Anton Filipcic for the purchase of certain real estate in the town of Truckee. The contract price was $3250 with interest at six per cent from May 16, 1930. He alleges that he has paid to date the sum of $1,227.25 and the unpaid balance is $2,022.75. He also avers that he has made improvements on the property to the amount of $4500. It is averred in the petition there is now pending in the Superior Court an action to terminate the contract and declare the property forfeited. Such action was set for trail on September 17.

Plaintiff further avers that the property is partly occupied by himself and family as a residence and he also uses the ground floor portion as an oil station. He states that due to economic conditions he has been unable to meet the payments provided for in the contract for purchase and asks that the court extend the time for forfeiture to February 1, 1937, under certain terms and conditions as set out in the petition.

The action is a unipue one and the first commenced in the Superior Court of Nevada County for relief under the act which is broad in its scope in regard to forfeitures under contracts for purchase of property, either real or personal.

FRANK KINNE OPENS PALACE BARBER SHOP

Frank Kinne on Tuesday opened the Palace Barber Shop in the Joseph Building on Main Street. Mr. Kinne has been engaged in the barbering business for the past eight years in Truckee, working at the shop of Nick Swago.

Mr. Kinne is prepared to give his friends and patrons first class barbering service. He has a host of friends in this region who will wish him success in his new venture.

COUNTY NURSE TESTS HEARING OF STUDENTS

The students of the grammar school from the fourth grade up and the students of the high school were given examinations on Wednesday to test their hearing by Mrs. Isabel Hefelfinger, county health nurse. The "audiphone" an instrument which enables the examiner to learn the exact hearing ability was used.

These tests are beneficial to the students as many may be suffering from poor hearing who are not aware of the fact. The results of the examinations are filed and enable the teachers to recognize the individual hearing disabilities of the members of their class.

These tests were also given at Hobart Mills and Boca.

At a later date Mrs. Hefelfinger will give instructions in first aid bandaging.

HUNTER LOST IN HELL HOLE AREA

F. E. Smith of Fair Oaks Missing Since Monday, Searching Parties Scour Country, Fear Man Has Been Injured.

F. E. Smith of Fair Oaks, a member of a deer hunting party who left Tahoe on Sunday for the Hell Hole region has been lost since Monday and searching parties have been scouring the country to try and locate the man.

Smith was last seen by Ernest Pomin of Idlewild on Monday morning between 9 and 10 o'clock about two miles from the camp. He had shot a forked horn deer and was on his way back to camp. Pomin advised him to dress the deer and hang it on a tree and go to camp and get a horse and bring the deer in. This he did and was last seen going in the direction of his camp and no trace has been found of the man since.

Mr. and Mrs. Ted Marshall and a group of CCC boys started out Tuesday night to assist in the search for Smith and four rangers from the Truckee station are attempting to locate the man. Men from the camp have been searching the region since Monday. It is feared that Smith may be injured or that he has become confused and has wondered far from the camp.

Highway Budget Remain Same For County

In the devision of the state highway budget made by Director of Public Works Earl Lee Kelly with the approval of Governor Frank Merriam, which was made necessary by the raising of the gasoline tax money distribution to the municipalities there was no change made in the items of the original budget effecting Nevada county, in this region.

In the budget announced last spring the following work was scheduled: $53,000 for drainage work on US 40 between Soda Springs and Summit (now underway) and $50,000 for surfacing and grading six miles of US 40 between Floriston, Nevada County and Nevada state line.

G. H. Abernathy Flies East For Father's Funeral

G. H. "Doc" Abernathy left by plane from Reno on Tuesday night for Erin, Tennessee where he was called by the death of his father Dr. A. H. Abernathy.

Dr. Abernathy who was 77 years old died suddenly Tuesday.

Mrs. H. R. Mighels is visiting in Sacramento.

HUEY LONG MURDERED

Recent photograph of Senator Huey P. Long of Louisiana who was assassinated in the statehouse at Baton Rouge by Dr. Carl A. Weiss, Jr., a political opponent of the "dictator" of Louisiana. Long, shot through the body, died about thirty hours later despite the efforts of eminent surgeons to save his life.

By United Press

CANCELLATION WINS APPROVAL

Cancellation of the Ethiopian oil concession to American capitalists received wholehearted approval of California editors.

The American nation, it was agreed, had one taste of the high cost of rescuing foreign investments and doesn't want another.

"Action by the Standard-Vacuum Oil company in canceling the Ethiopian oil concession," said the San Jose News, "was a great victory for our state department and a generous gesture on the part of the company. The makings of a dynamite-filled situation were provided when this concession was signed and Americans drew a long sigh of relief when Secretary Hull announced it had been cancelled."

Admitting that "while the holding of the oil lease in Ethopia did not obligate this country to provide any defense," the Redwood City Tribune believes "it nevertheless did offer a source of embarrassment and create nervousness and uncertainty among the people of Europe. The cancellation of the lease has cleared the atmosphere, and made conditions more favorable for the effectiveness of the neutrality resolution recently adopted."

"It may be," notes the Orange Daily News, "that the Standard Oil company has saved the world from disaster. The real cause of the trouble in Europe is set forth with startling clearness. What nation can justify the shedding of blood for the possession of an oil field? Will not the sane public opinion of the world beat down the war mongers as contemptible traders in human misery? So far as the United States is concerned, the revelation of the real cause of the struggle in Africa should be of the highest benefit. The American people will not support a war in which they are not convinced that the safety of their country is involved. They will look with contempt on any contest that may be launched in Europe."

As viewed by the Fullerton News Tribune, "no sane person figured for a minute that the United States government would inject itself into a dispute at this stage of the Italo-Ethiopian controversy to uphold a purely commercial deal arranged for the benefit of a single American corporation. Such action might have been possible in the hey-day of dollar diplomacy—many similar moves are on record in South and Latin America—but there is not a chance in this day that governmental support can be found for private ventures which may involve us in war."

"Two or three decades ago," comments the Santa Ana Register, "this high-handed procedure might have been carried out. But the people have been learning some things about war, the causes of war, who pays the bill, and who suffers the maimed bodies. And they have learned that the families who pay the price for the war do not get the rewards from the investments that were the real cause of the war. We are making the progress, even though it seems very slowly at times."

"With the grant out of the picture as far as the United States is concerned," remarks the Stockton Record, "it has been rumored that the offer may be made to Japan. The Island Empire, with eyes turned toward Ethiopia in particular and Africa in general in recent years, might covet such a right to exploit Ethiopia's resources—but probably not at this dark date. Even Nippon should prefer to bide her time instead of being thrust in as a buffer to Mussolini's African ambitions. Regardless of the fate of the rich Ethiopian concession, which would have been eagerly sought in calmer times, it is reassuring both at home and abroad to have America cleared of any taint of eleventh-hour "dollar diplomacy."

800 NEW LAWS

A minute after the clock struck twelve last Saturday night there were suddenly eight hundred new ways to violate the law in California. For that ghostly hour marked the end of the 90-day respite after adjournment of the legislature before non-emergency measures go into effect.

The instinctive reaction of the more sensitive, conscientious citizen to such a batch of new regulations would naturally be one of caution. Already surrounded by some hundred thousands of "do's" and "don'ts", he might even decide to delay venturing out of doors until he had scrupulously studied every last act among the new eight hundred.

But as a matter of fact the ways of life in California will be very little changed. And as for finding out what all the laws mean—that is well nigh impossible for most of us. Probably nine legislators out of ten don't even know what half of them are about.

Some 50-odd measures labelled "emergency," including the huge tax program of boosted sales and income levies, have been operative since the Governor signed them. These the public isn't supposed to know much about. All we're supposed to do is pay, and then pay some more.

Unquestionably there are too many laws, too woefully mixed, jumbled and overlapping. Just getting to know them all would be a life work. For the present, however, if we simply continue to go along minding our own affairs and following our better inclinations, we will scarcely be aware that there are eight hundred new laws on the books.

Turning Over a Full Larder

Politically Speaking

By GEARGE E. HELMER
(United Press Staff Correspondent)

SACRAMENTO, Sept. 19 —(UP)— Seeking to save the Merriam administration from any blame for an unbalanced budget and mounting state governmental costs, a long article released by the California News Bureau, administration publicity office, points out that unemployment relief accounts for a large part of the deficit.

The article carries a statement attributed to A. E. Stockburger, director of finance, saying that nearly all of the $79,481,232 deficit confronting the state may be traced to "additional and extraordinary expenditures, together with an inherited deficit."

"Of this sum," the statement says, "$48,000,000 represents unemployment relief, which preceding governors did not have imposed upon them $21,386,859 is a carryover deficit to which Governor Merriam's administration fell heir; and $10,017,307 is the amount of increase in payments for aid to the aged for the 1935-37 biennium. In addition, special appropriations by the legislature total $851,992.

"But for these items there would be no deficit and Governor Merriam would have closed this biennial period with a surplus."

But for the legislature's inability to agree on numerous tax proposals, the deficit might be wiped out, anyway—provided the tax payers continue to meet the growing schedule of taxes.

Governor Merriam presented to the legislature a general fund budget of $228,266,838. The lawmakers jumped this to $257,118,729, then added special appropriations, unemployment relief and increased aid to the aged to bring the total authorized expenditures up to $291,988,029 for the general fund alone.

Legislators turned down the governor's recommendations for a 3 per cent sales tax with no exemptions; a severance tax on natural resources, an increased gasoline tax for unemployment relief, so-called nuisance taxes on amusements and tobaccos and a consumers' tax on utility services.

These may be considered all over again next winter.

When Merriam goes to the national Legion convention in St. Louis September 23-24, Lt. Gov. George J. Hatfield may accompany him. In that event, William P. Rich, state senator from and president pro tem of the upper house, will move into the governor's chair for a temporary period.

Senator Rich's position as president pro tem of the senate makes him the third ranking official in the state government.

Should Merriam and Hatfield leave the state at the same time, Rich would have a fine opportunity to create sensations by exercising his full power as acting governor. He could oust Merriam's appointees and put his own pals into office. He could even pardon Tom Mooney, Nellie Madison and any other first term convicts, if he chose. He could upset the administration and cause howls of anguish to arise from all sides. He could order the national guard into combat with strikers, if there happened to be any strikers. He could make appointments to positions Merriam has postponed filling. All in all, he could have a large amount of fun and "make the headlines" daily during the 10 days he would serve as chief executive.

There is, little likehood of such things happening. Merriam and Rich are good friends and have the same political faith.

Merriam acted as governor once during the Rolph administration. He merely visited the corner office, shook hands with the employes, signed a couple of papers wihch demanded immediate attention, and returned to his second floor lieutenant governor's office with the remark: "If you need, me, I'll be upstairs."

He has not been out of the state since his election to the governorship, and Hatfield has not had an opportunity to occupy the executive chair.

That memorable Sunday nearly two years ago when a mob of San Jose residents went on a lynching spree, the late Governor Rolph cancelled a trip to Salt Lake City for fear that in his absence Merriam, as acting governor, would order out the troops. Rolph feared innocent people would be mowed down if the national guard went into action against the San Jose mob spirit.

Rolph always was hesitant about ordering troops into trouble areas. He waited for sheriffs to admit they could not handle the situation, and pride often prevented sheriffs from making that admission. Rolph preferred to send highway patrolmen, who were not supposed to do anything but keep the highways clear but whose uniformed appearance often had a quieting effective upon mobs.

Couples Who Change Minds Will Lose License Fees

SACRAMENTO, Sept. 19,—(UP)—Couples who file an intention to wed and then change their minds in the three-day period before the license can be issued will be out $2 after September 15.

A new act of the legislature, effective that date, requires payment of the fee when the intention is filed. At present payment is not required until the license is issued. Under the new law only one of the parties involved need be present when the intention is filed.

TAHOE REGION NEWS

By Swanee

Special low price for quick sale—1927 Pachard Sedan, $165.00. In Fine Condition—This ad, appearing for the first time in last week's paper was read by a Tahoe resident on Friday morning, when the paper arrived here, who on Saturday morning paid cash for the car, well pleased with her bargain. Just another proof of the efficiency of Sierra Sun Ads Try one when the need arises.

The many local friends of Sherif Charles Barrett of Alpine County killed Friday when his car plunged off the highway and was wrecked near Minden, were grieved to hear of the tragic passing of this popular official. He was a frequent visitor at Tahoe where he was well known, and was a member of the California Peace Officers Association

According to the Nevada State Journal, plans to pump water from Lake Tahoe into the Truckee River to increase the flow for sanitary purposes, have been abandoned. Failure to negotiate for federal money to finance the program and violent opposition from Tahoe property owners were given as the reason for it A proposal was made late in July to pump water from the lake for irrigation purposes, but the opposition declared that promises were made last year to lakeshore property owners that pumping would not be continued for irrigation purposes. Under stress of real necessity however, pumping would be permitted.

Inability to reach an agreement between the Indians, the Truckee-Carson Irrigation Co., the Reno Irrigation Co., and the Sierra Pacific Power Co. is reported to be retarding progress on the proposed new dam at Boca on the little Truckee. When, and if, this is eventually acquired the water situation should be relieved considerably. The lake now stands at 6223.06.

A touch of real winter weather struck this section on Saturday with winds, overcast skies and heavy showers in the mountains and in some sections of the lake.

The Tahoe Lake Parent Teachers Ass'n. last week returned it's charter to headquarters and withdrew permanently from the organization. Since it's inception nearly 11 months ago, five office holders have resigned either because of ill health or enforced absence from the district. For the last three meetings even a quorum of five members could not be secured to carry on the business. Because of the different sessions of the schools it is difficult to arrange the meetings to please all. High school students have their vacation in the summer, and grammar children have theirs from December until around the first of April. Some members wanted the meetings discontinued in the winter and some in the summer. There does not seem to be enough members to carry on the organization throughout the season. Lack of cooperation and general indifference are the principle causes of it's premature demise.

It is regretted that the Sierra Tri-Branch council formed between Tahoe, Truckee and Hobart must be broken up by it's failure, and it is sincerely hoped that some other small community will be prevailed upon to take Tahoe's place in order that the council may function for the benefit of the others.

Mr. and Mrs. Otis Hursey of Lake Forest entertained the Chas. Swansons at dinner on Friday evening. James Wilson was also a guest.

The last Southern Pacific passenger train of the season departed from Tahoe on Sept. 15th, taking with it our last hope of a 10:30 p.m. mail service for another year. Mail will leave from Tahoe City post office from now on at 4:30 p. m. instead of 6:00 p. m. for the remainder of the winter months.

The Tahoe Mercantile store has changed it's business hours being open now from 7 a.m. until 6 p.m. (instead of 9:00 p. m.) and on Sundays will be open only from 7:30 until 12 noon.

The trial of Roy Andrus of Brockway, scheduled for Sept. 12th, failed to materialize as the complaining witness, Lee Scott, informed Judge Bliss by mail that it would be almost impossible for him to make the trip to Tahoe at this time. It is understood that Andrus paid for the damages Scott's auto incurred in the wreck.

Deer season opened in this section on Monday, with many hunting parties organized and away long before then. Shots ring out early and late through the mountains, but it is a little too early at this writing to learn the names of the envied ones. Carl Bechdolt is believed to be the first local man to get a buck, snaring his up Ward Creek.

Miss Agnes Soll of Sacramento, daughter of Mr. and Mrs. Henry Soll of Pine Lodge, enjoyed a two day visit with her folks here over the week end. Miss Soll is well pleased with her new position with the telephone company in Sacramento.

Mrs. Jack Malcolm has been seriously ill all week at her home in the Bettencourt Tract, and under the care of Dr. Pedersen.

Professor and Mrs. Henry Hinkle are both suffering still the effects of their recent automobile wreck. An operation may be necessary in the near future upon Mrs. Hinkle's leg, which seems to defy treatment, Miss Sue Hinkle is attending Mills College, and little Dick and Marilyn Hinkle are pust recovering from the whooping cough.

Enjoying a late vacation at Tahoe are Mr, and Mrs. Pierre Mirc, formerly of Paris, whose lovely new home at Crystal Bay was recently completed by Jack Wolert of Truckee.

If Harry Johaanson has been promising himself any special reward for his hard summer's work, it must wait indefinitely. For one night, not long ago, in a kindhearted mood, he turned his big malmutes loose for a little exercise, after having had them tied up all day on a chain. But what Harry didn't suspect was that their keen noses picked up the scent of a nearby sheep camp and off they went to make canine whoopie. The expensive result was a bill of close to $100 for Harry to pay for sheep that were either killed injured or stampeded. Although be bought one of the sheep outright and brought it home, somehow Harry is acquiring a distinct aversion to lamb and mutton. It is also safe to venture that his playful pups will be allowed no more unrestricted freedom until well after snow flies. Harry, in short, does not hanker to be a stock broker without any "stock."

Mrs. Henry Wehrman and son Milton are enjoying a vacation trip through Siskiyou county. The young man is night watchman for the Tavern properties.

Mrs. John Maderos of Folsom (the former Katie Bacchi) was guest of honor at a large birthday dinner party at the home of her parents Mr. and Mrs. George Bacchi of Lake Forest, last week. She was accompanied by her husband.

Mail will be distributed between 9:30 and 10:30 as usual on Sundays for 4 weeks more, until October 13th, according to Postmistress Janet Watson.

Miss Maggie Pomin has left Hobart Mills Hospital and is now in Reno where she is undergoing X ray treatments. Her condition is quite satisfactory and she expects to return to her home at Tthoe soon.

Old timers will regret to learn of the death last Saturday of Frank Walker in Clarksville. An old timer at Tahoe and once owner of beautiful, extensive ranch holdings in this region, he spent most of his life here. Several years ago he lost most of his holdings through litigation and since then has made his home at Clarksville with relatives. He was the father of Agnes Sheehan, and Gene and Tom Walker, local boys. His wife, the former Mrs. Russi, died a number of years ago.

Hary Johaanson was a visitor on official business in the Auburn courts on Wednesday last when he went to seek application for his final citizenship papers. These will be granted in several months. Charles Swanson and Bob Watson accompanied him as witnesses.

Excitement ran high at Tahoe throughout the week as M. G. M. started shooting scenes on their Carnelian Bay lot on Thursday. Scarcely a soul was to be found in town, the entire pupulation either present as extras or as interested spectators at Carnelian. Close to 250 Indians are camped near by and a special group of colorful tepees have been erected along the shore line. Scenes shot were those of the steamer landing at the little North West Canadian town (the Nevada receiving a new name by merely covering up a few of her letters, making the name Evad.) The atmosphere was made realistic as 20 or more canoes filled with Indians paddled out to meet it, and the crowd surged onto the pier to watch it land.

An interesting side light was a unique souvenir salvaged by Mrs. George Seymour of Brockway. It consisted of a broken paddle upon which she secured the autographs of Jeanette MacDonald, who plays the part of Rose Marie, and Nelson Eddy, who is head "mountie" in the picture, the names of directors, assistants, camera men and even the extras. She plans to give it a coat of shellac before the names become effaced, making it thereby, a permanent and novel souvenir.

On Sunday scenes were shot at the Transportation Co. building, near the old freight office, which has been remodeled by a score or more of carpenters, into bed rooms, etc. A large crowd of Sunday visitors gathered to watch the interesting performance, speed cops keeping traffic in order.

Mrs. Bertha Mawdsley of Oakland, former Tahoeite, is recovering from a severe attack of influenza which kept her in bed for more than a week, according to letters received by friends this week.

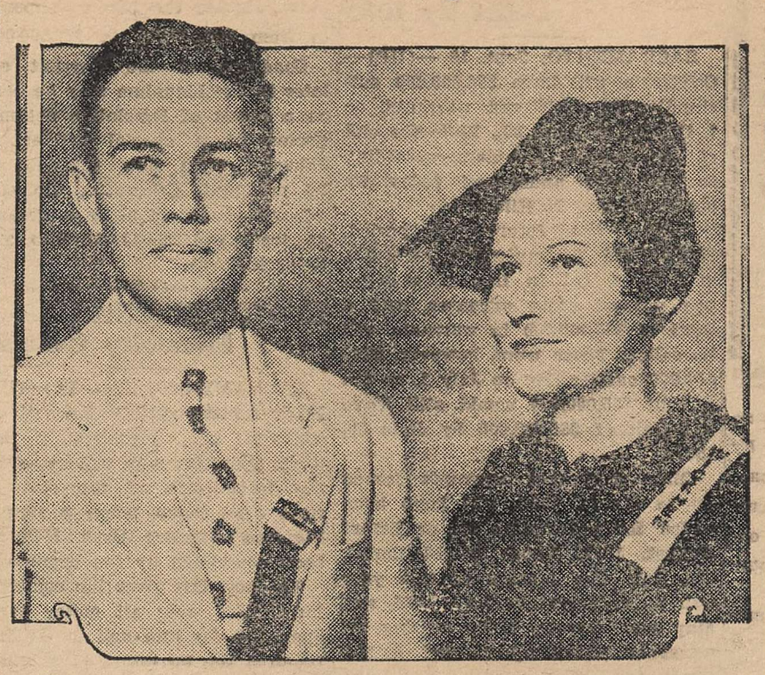
Supervisor and Mrs. Jack McFadden of Forest Hill were visitors in town last week.

Mrs. William McFadden of Fairfield, has closed her Sunnyside home for the season and returned to her ranch. While here she entertained as her houseguests Mr. and Mrs. W. J. O'Haire and Mrs. P. McUen of San Francisco and Mr. and Mrs. N. Westholm of Fairfield. Other visitors were Mrs. P. Hubner and Mr. and Mrs. W. Bolton of Fairfield. The entire group visited at the Chris Nielsen home while here, cards and refreshments the diversion of the evening.

The Richard Shainwalds of San Francisco enjoyed a week end at their summer home at Tahoe last week.

Mrs. L. Schaackey of Oakland and party were recent visitors at Tahoe Pines home of her brother.

Chiefs of the Young Democrats



Here are the president and vice president of the Young Democrat Clubs of America who were elected at a meeting in Milwaukee, Wis. They are Franl Wickhem of Sioux Falls, S. D., and Mrs. Louise Galleher of Leedsburg, Va.

HOBART MILLS

LOCAL BOY MAKES GOOD(Almost)

According to reports received here, Mr. Cecil Selburn, after completing a three day correspondence school course, has with the aid of "Old Ironsides," a relic of the good old days; accepted a contract with two local companies for advertizing. Mr. Selburn after several days of strenuous labor decided to take an evening of relaxation and hired a crew of assistants to carry on the work while he attended the show at the Truckee Theatre. His assistants were not idle and decorated "Old Ironsides" with signs, ice cream packers, and nail kegs. After the show Mr. Selburn surveyed the work and was much pleased; and decided to immediately parade the streets on an advertising campaign. But "Old Ironsides" refused to move either forward or backward, as someone apparently in a playful mood had put a block under the left rear wheel and Cecil, being rather down hearted at such a late start, decided to give up his new business venture for the evening.

Stan Weeks and Ted Lawhead were both successful deer hunters on the first day of the season and each brought in a fine buck. Two bucks were also brought in by some friends who were the guests of Mr. and Mrs. Kenneth Plummer for the opening of the deer hunting season.

Ray Cavallo who is attending the Sacramento Junior College came home on Friday evening and spent the week end at the home of his parents Mr. and Mrs. Sam Cavallo, returning to Sacramento on the Sunday afternoon stage.

Mrs. Frank Wilson entertained a group of friends on Friday afternoon Bridge was enjoyed during the afternoon and when scores were counted high awards went to Mrs. E. C Murray and Mrs. Martin Nelson. The following attended; Mrs. E. C. Murray and Mrs. Martin Nelson Mrs. Roy Gates, Mrs. Martin Nelson Mrs. John Person. Mrs. E. K. Wilson, Mrs. Vere Mack and Mrs. F. W. Lazier

Mrs. Ellen Connors left on Sunday morning for a month's visit with relatives in Indiana.

Mrs. Irma Atkins and Mrs. Jessi McGinnus, teachers in the Hobart school spent the week end at their homes in Nevada City.

Harold Wilson accompanied by his mother, Mrs. Frank Wilson visited relatives in Nevada City on Sunday.

About one hundred friends of Mr. and Mrs. Salvador Ureitta spent the day with them at their Sage Hen Camp. A barbecue was served during the afternoon.

Mrs. Island accompanied by her niece were visitors on Saturday afternoon from Camp 21.

Mrs. George Lesselyong who was a patient at the Hobart Hospital for ten days returned to her home on Thursday and left on Sunday for Hayward where she will visit with her nephew and family for a few weeks.

Mrs. Oscar Swanson of Camp 21 was a visitor on Tuesday afternoon.

Harlis Lacy left here on Sunday, afer spending the summer here while working at Camp 21 and in town.

Mr. and Mrs. Austin Otis and son Bill and daughter Caroline have gone to Gridley where they will visit relatives for a few days.

Mrs. Carl Weeks of Truckee was a visitor on Tuesday afternoon.

Mr. and Mrs. Johnie Hooper of Sacramento were week end guests of Mr. and Mrs. Harold Percy. They are former residents of Hobart Mills and Mrs. Hooper was formerally Miss Lettie Baird.

Mr. and Mrs. Bill Cole were week end guests of Mr. Cole's mother Mrs. Trexler.

Dr. Schwing has returned from a few days business visit at San Francisco.

V. Burti, better known locally as Sharkey, has returned from an eight months visit in Italy and resumed work here. Sharkey says he enjoyed the visit but is glad to get back to California.

Herman Walters was successful in getting a deer early this week.

Mr. and Mrs. Harry Maggard of Lake Independence were visitors on Tuesday afternoon.

O. C. Landrith spent the week end in Reno where he visited his family.

NORDEN NEWS

Truth is stranger than fiction for believe it or not Manuel Berry has astonished the community by having three automobiles in the past six weeks. The first one was a Ford Roadster, then a Willys 4-door sedan and this week end a Studebaker sedan. Berry advises his friends that the American dollar contains much elasticity if one knows how to apply same.

The deer season is now open in this district with as many of Norden residents in the field who are able to get away. As far as known to deer were brought in on opening day. Many of the hunters are remaining a few days in their localities in the hopes of bagging the limit.

William Flackus spent last Sunday in Reno.

Thomas Eversalt and family accompanied by Mrs. Clarence Libby and Mrs. Angie Bealls enjoyed a pleasant evening in Truckee on Saturday.

The shower last Saturday afternoon was sufficient to settle the dust only in this section and assisted in cooling up the atmosphere.

Joseph "Ironman" Peters is proving the life of the party on his weekly visits to the Capitol City.

Joseph Casari of Norden is remaining over several days on business in Sacramento.

Harry Williams, Manuel Berry and Walter Lindstrom have been enjoying themselves cavorting about at Soda Springs for the past several Sundays.

The Evan Allen family motored to Reno this week on a theatre party.

The Rectors spent last Wednesday in Truckee on business.

During the early morning hours last Monday a large black cow belonging to Wilson's dairy of summit was struck and killed on the highway near Tunnel Six. The highway department disposed of the carcass.

The John Kinseys are being extensively entertained among friends in Truckee this week.

The Harold Boomer family motored to Reno Saturday evening to

view the popular movie "Naughty Marietta" which was thoroughly enjoyed.

Mr. and Mrs. George Allen motored to Truckee last week on business.

Carl Nelson of B & B 113 at Troy was extensively entertained among his collegues in Sacramento last Sunday.

The Harms Construction Co. of Sacramento are on schedule in their work of repairing the highway in this vicinity and employ a crew of 40 men.

Engineer Nagle and Conductor Oltman of the Norden Fire Train are visiting in Sacramento and Roseville for a day or two.

Miles Curran is pacing the foothills in search of a five pointer or larger buck if one should chance to be staked out for his convenience.

Kenneth "Easy" Lyons of the Harms Construction Co. of Norden is having much entertainment in dodging machines on the highway while on a flagman's positions.

Those to accompany the Berry's on a recent trip to Sacramento included O. D. Call and Carl Ohman of Norden.

"Abe" Bertolozzi of Norden enjoyed a recent trip to Sacramento to visit relatives.

Mrs. Charles Vanderford of Sacramento was a recent arrival in Norden.

HEADS A NEW BOARD

Theodore Krebs, professor of business economics at Stanford university, California, has been made chairman of a new federal central relief board that will function as a board of review to co-ordinate surveys proposed by federal, state and local governments as part of the works-relief program. Professor Krebs, who is a well-known statistician, went to Washington last December to assist the NRA.

New Driving Laws Effective September 14th.

SACRAMENTO, Sept. 19 —(UP)— Drastic new laws to curb intoxicated and reckless drivers will be effective after midnight Sept. 14th when amendments to California's motor vehicle code will become effective.

Under terms of the measures passed by the 1935 legislature, any person driving a vehicle while under the influence of liquor is guilty of a misdemeanor, and punishment is fixed at 30 days to six months imprisonment or by a fine of $50 to $500 for the first offense.

"When bodily injury is caused by drivers under influence of intoxicating liquor, or when the persons so driving do any act forbidden by law, drivers are guilty of a felony. A maximum sentence of five years in state prison is provided," explained Ray Ingels, director of motor vehicles.

"If death is caused within one year as a result of an automobile accident, the person having driven the vericle in a negligent manner is guilty of a felony. A sentenct of one to three years is provided."

Other new provisions of the motor vehicle code include:

When bodily injuries are caused by reckless driving, the driver can be punished by county jail sentence of from 30 days to six months, or by a fine of from $100 to $500, or both for the first offense.

Persons arrested for speeding must prove to the court that they were traveling at a reasonable and prudent rate with regard of traffic, surface and width of highway and with regard to safety of persons and property.

When a driver does not have a clear and unobstructed view of all traffic within 100 feet approaching and intersection, the limit is 15 miles an hour. This does not apply to traffic controlled intersections.

Except when loading or unloading merchandise, vehicles parking on through state highways must be placed so front and rear right wheels are within 18 inches from curb or edge of road. This also makes parallel parking obligatory on all state highways within incorporated cities.

All commercial vehicles must carry two flares, red lanterns, warning lights or reflector. Such lights must be displayed 200 feet in front and rear of vehicle when disabled at night.

Women May Cause Prohibition Movement

SACRAMENTO, Sept. 19—(UP)— The way California women have taken to both sides of the bar may force men into a defensive prohibition campaign, in the opinion of Miss Oria Jean Shontz, member of the state board of equalization.

Pointing out that the so-called weaker sex has taken up the drinking of stronger beverages with no little enthusiasm, Miss Shontz said:

"The men don't like it. This is a vice they feel should be exclusively masculine. I can forsee a new prohibition movement initiated by men out of sheer disgust at the present situation.

The feminine invasion of the state's drinking emporiums is not confined to the consumers' side of the bar by any means.

Liquor enforcement officers in Los Angeles revealed that out of 12,000 liquor licenses issued in the county, 2,900 or 24 per cent, are held by women.

In commenting on this situation, Brown reported that a lot of women license holders show an inclination to think a beer license covers everything from selling mild sherry to peddling bootleg liquor.

Cotton Production of State Is Estimated

SACRAMENTO, Sept. 19—(UP)— California's 1935 cotton crop should total 225,000 bales, according to a forecast by the federal state crop reporting service.

The service reported favorable weather, but increased damage from several species of plant bugs.

Indications now are for 480 pounds per acre, compared with an average production of 556 pounds last year and a 10-year average for the state of 404 pounds per acre. The average yield for the United States this year is forecast at 192 pounds per acre.

State To Have Large Defict By 1937

SACRAMENTO, Sept. 19 —(UP)— California will have $86,000,000 outstanding in registered warrants, or I. O. U.s, by June 30,, 1937—the end of the present biennium—according to estimates announced today by controller Ray L. Riley.

During the intervening period, $117,000,000 in registered warrants will be issued in lieu of cash to pay current state expenses, and a total of $55,000,000 in warrants will be called. There were, however, $24,000,000 outstanding on July 1, so the call of $55,000,000 would still leave a deficit of $86,000,000 by June 30, 1937.

Riley said that warrants issued up to March, 1936, will have been called for redemption on or before August, 1937. Those issued during the first five months of this year will be redeemed in May, 1936, and May and August, 1937, retiring all warrants issued up to and including March, 1936.

In August, 1937, about $15,000,000 to $20,000,000 will be available to call part of the $86,000;000 outstanding at the end of this biennium, thus reducing the figure temporarily to from $66,000,000 to $71,000,000.

Condition of the warrant setup later in the biennium may be altered as a result of legislative action expected at a special session next January when new revenues may be produced. Otherwise, the state's general fund will show a deficit of at least $86,000,000 in two years, Riley believes.

New Trucking Set Up Machinery Completed

SACRAMENTO, Sept. 19 —(UP)— Plans for the registration and classification of approximately 13,000 truck operators who will come under the jurisdiction of the state railroad commission when a new law becomes effective Sept. 15th, have been completed by the commission.

The new law gives the commission jurisdiction over all motor carriers operating for hire and in California, requires the operators to obtain permits to carry on their business over the highways.

PATRONIZE OUR ADVERTISERS

Going After Old Al Capone Taxes

Joseph Lawrence, administrator of taxes and penalties of the Department of Justice, is pictured at his desk poring over documents which furnished information for the assessment of $120,000 in old liquor taxes against Al Capone and some of the members of the old Chicago syndicate with which he was connected in the days of prohibition. A matter of some 19,900,000 odd barrels of high power beer, seized by authorities between 1921 and 1932, furnished the basis of the assessment.

Aged Persons of State To Receive Only Minimum

SACRAMENTO, Sept. 19 —(UP)— Old age pension payments under the liberalized law effective September 15 will be scaled down to meet actual family needs, according to Mrs. Florence L. Turney, state director of social welfare.

"It is our intention," said Mrs. Turner, "to keep married couples together. "But two persons living together naturally can live more cheaply than two persons living alone. In the matter of rent and utility bills, the expenses of a married couple are little more than that of a single person.

"While the husband may receive as much as the maximum of $35, it is unlikely the wife will recieve any more than the minimum $20."

The director pointed out that it was apparent that no luxuries could be provided by the state, but that recipients would be permitted to wear presentable clothing, but comfortable and keep up such interest as church activities "and the like."

Pointing out that the new act granted wide powers in the investigation of needy cases, Mrs. Turney said that "agents will determine what the budget is for the family, taking into account other aid or income."

Mrs. Turner also explained that the locality and other conditions will have a varying affect upon budgets. Higher allowances will be made for rentals and food in urban districts, while increased need of fuel must be recognized in the colder districts.

Effective next Sunday, the new law is expected to increase the state pension load from $7,000,000 to $17,000,000 annually through the addition of approximately 23,000 aged persons to the current roster of 29,000.

The increase in the number of persons eligible in the minimum age limit from 70 to 65 years of age, it was explained.

Many New Laws Effective September 15th

SACRAMENTO, Sept. 19 —(UP)— The bulk of measures approved by the 51st California legislature during its long session last winter and spring will become effective September 15.

One important bill—placing a tax on chain stores—will be held up by referendum until the general election in 1936. At that time, the electorate will vote on the proposal and if it is defeated the tax measure will not become effective.

Some outstanding bills, particularly those relating to taxes and finance, became operative July 1 or earlier. These included the increased sales tax rate, with food exempted; the excise tax on liquor, increased inheritance tax and bills tightening provisions of the sales tax act.

Gov. Frank F. Merriam vetoed bills to repeal the three-day "gin marriage" law to legalize betting at dog races, and to permit the tapping of stateowned tideland oil pools.

Among the bills which will become operative September 15 are the following:

A state tax on automobiles, in lieu of local personal property taxes, at the rate of $1.75 per $100 actual market valuation. This tax will not be collected until January 1, when motorists purchase their 1936 license plates. It is devised to raise $25,000,000 in two years.

A personal income tax at a rate one-fourth the federal levy, to be collected next spring.

A moratorium on mortgages, similar to the Minnesota plan, to replace the present mortgage relief plan which expires this month.

Liberalization of the state old age security act, reducing the age requirement from 70 to 65 years and setting the minimum benefit at $20 a month, raising the maximum from $30 to $35.

An employment insurance measure which will start operation January 1, 1936.

Regulation of building and loan associations.

Creation of a women's board of trustees to manage the Tehachapi prison.

There are hundreds of others of a minor nature touching upon almost every variety of legislation.

During the 44 years that capital punishment has been meted out at Sing Sing prison by the electric chair 375 slayers, including four women, have paid the penalty there.

OLD AGE PENSION INCREASES EXPENSES

SACRAMENTO, Sept. 19 —(UP)— All California counties facing the necessity of increasing expenditures because of old age pension allotments will be granted authority to exceed the 5 per cent limitation.

This announcement has been made by the state board of equalization in view of failure of the federal government to match state pension funds at a time when needs of the aged are increasing daily.

"We have already granted permission to many counties for such increases and every request for permission to exceed the 5 per cent limitation on annual expenditure increases will be approved when it is occasioned by necessary increases in budget allotments for old age pensions," said Fred E. Stewart, board member.

"The board wishes to caution all county, city and district officials, however, that it will not tolerate disregard of the provisions of the 5 per cent limitation act and that any attempt to use old age pensions as a subterfuge to excuse extravagance will result in summary action against the disbursing officer."

REAL WAR HERO?

Determined to obtain for Sergt. Bernerd J. Early, shown above, of New Haven, the credit given to Sergt. Alvin C. York of Pall Mall, Tenn., for annihilating a German machine-gun battalion, the Connecticut department of the American Legion adopted a resolution calling on congress to award the Congressional Medal to the Connecticut veteran. Sergeant Early is totally disabled due to war injuries. The resolution asserted that the capture of the Germans in the Argonne forest was effected by Early and that he turned them over to Sergeant York then his corporal, to take back to the lines.

The averageflash of lightning contains only about 30 cents worth of electricity, according to recent measurements.

Tin cans for the preservation of foods were first made by hand by tinsmiths, one worker turning out only 60 cans a day.

A new aerial camera for mapping which will take 760 square miles at one exposure will be used in a new survey of New Mexico.

Christian Science

"Blow ye the trumpet in Zion, and sound an alarm in my holy mountain: let all the inhabitants of the land tremble: for the day of the Lord cometh, for it is nigh at hand." These words from Joel comprise the Golden Text to be used Sunday, September 22, in all Churches of Christ, Scientist, branches of The Mother Church The First Church of Christ, Scientist, in Boston, Mass.

The subject of the Lesson-Sermon will be "Matter." Included among the Scriptural selections will be: "Thus saith the Lord the King of Israel, and his redeemer the Lord of hosts; I am the first, and I am the last; and beside me there is no God. They that make a graven image are all of them vanity; and their delectable things shall not profit; and they are their own witnesses they see not, nor know; that they may be ashamed" (Isa. 44:6,9).

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "Spirit and matter can neither coexist nor cooperate, and one can no more create the other than Truth can create error, or vice versa. In proportion as the belief disappears that life and intelligence are in or of matter, the immortal facts of being are seen, and their only idea or intelligence is in God. Spirit is reached only through the understanding and demonstration of eternal Life and Truth and Love" (p.279.)

Advertise It in the Sierra Sun

State Auto Numbers Not Public Information

SACRAMENTO, Sept. 19,—(UP)—The old practice of giving out telephone information on vehicle registration numbers has been stopped by Ray Ingels, director of the state department of motor vehicles, because it was "unfair to the public and vicious in its possibilities." Henceforth, only law enforcement agencies will continue to be assisted by records of the department.

"Originally designed as a public information service to assist law enforcement agencies, the system has been abused to the extent that California's citizens are suffering from unfair activities of gossips, busybodies, nuisance solicitors and racketeers," Ingels said.

"Department of motor vehicles did not plan its service to provide names and addresses of owners of vehicles for the purpose of giving inquisitive persons opportunities to carry on flirtations. Neither does the department desire to be the medium of innocently furnishing information that might be used for blackmail and persecution of automobile owners. But this is what is happening daily when John Doe telephones a department office to ascertain the name, address and financial obligations of the driver of a certain automobile number."

There have been instances wherein drivers of cars parked in secluded lanes have been identified by their license numbers and bothered by curiosity seekers or blackmailers. Automobile dealers and others have obtained names of "prospects" and mailing lists from the vehicle registration books.

"When a system of information is abused and it offers such vicious possibilities, it is time to call a halt in the interests of the people who pay for it," Ingeles said.

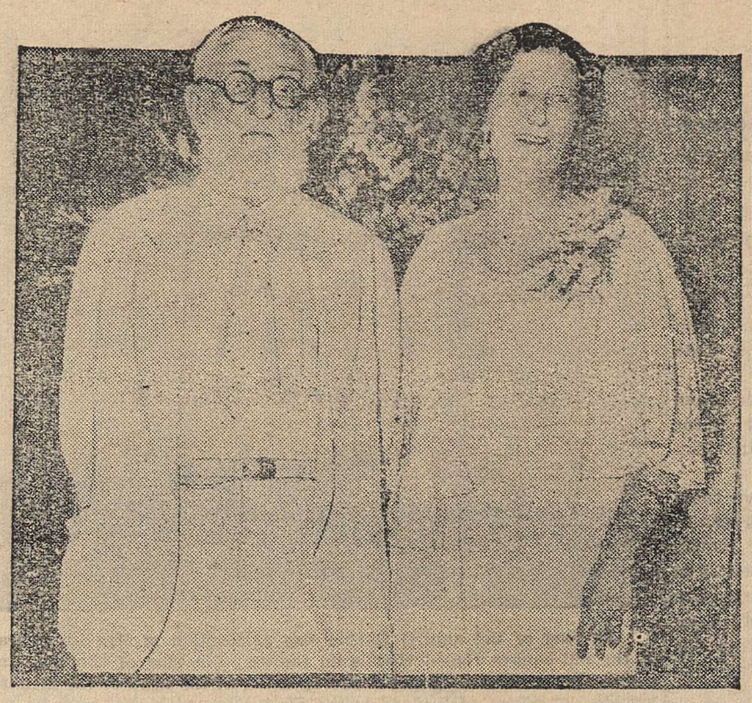
"The volume of telephone calls has been so great that police and sheriffs have been handicapped in obtaining service from our various offices. For example, Los Angeles office has been forced to employ 12 girls almost continuously to answer demands of inquisitive persons."

WPA SPONSORS NATION WIDE PORJECT FOR ARTISTS

A notion-wide project, sponsored by the WPA for professional artists, musicians, writers, photographers and persons with dramatic training has been approved at Washington, according to advice received from the National capitol by Frank Y. McLaughlin, state WPA administrator.

The only farm on Manhattan Island (N.Y.) has only five acres but is valued at $400,000.

He Finds Romance Again at 90



Twice a widower after marriages which lasted 28 and 38 years respectively, David L. Selke, ninety-year-old head of the congressional information bureau, was wed to Sally Mason, fifty-nine-year-old music teacher of California and Washington. Mr. Selke said he had so many children that he had stopped counting them. The bride and groom are shown above.

Origin and Meaning Of Names of Counties

The story of how California counties derived their names is an interesting part of the history of the Golden State. Believing that the thousands of tourists who annually motor over the state's great highway system would like to know how the counties they visit came by their names, Director of Public Works Earl Lee Kelly, at the request of Governor Frank F. Merriam has had prepared from state records a series of brief stories of the origin and meaning of the names of the counties of California including a few salient facts about each county. Following is the fifth installment of the series. Editor.

FRESNO COUNTY—Created April 19, 1856. The word "Fresno" in Spanish signifies "ash tree," and it was because of the abundance of mountain ash in the mountains of this county that it received its name.

Fresno is California's sixth largest county. After losing 2000 square miles for the creation of two new political subdivisions it remains three times the size of the state of Delaware. Fifty years ago the county was a part of arid plains; wheat growing was a gamble against the rainfall; sheep and cattle roamed over immense areas; and land was almost free, so unpromising were conditions without irrigation. Today approximately 550,000 acres are irrigated and 1,493,477 are under cultivation. Fruit orchards cover 300,000 acres, or nearly 469 square miles, and the county ranks second in the state with 10,334 farms. The United States Department of Agriculture rates it as one of the richest agriculturally, in America. Fresno produces 27 per cent of the country's grapes, 32 per cent of the figs and 10 per cent of the peaches.

Kettleman Hills, one of the oldest oil-producing districts in California, are in western Fresno. Statistics show that Fresno county shows a greater consumption of electricity per capita than any other section of its kind in the United States.

In addition to a portion of General Grant National Park, Fresno has many spots for the lovers of the outdoors. Population: 144,379. Area: 5950 square miles.

GLENN COUNTY—Created March 11, 1891. This County was formed out of the northern portion of Colusa County, and derived its name from Dr. Hugh J. Glenn, who, during his lifetime, was the largest wheat farmer in the state, and a man of great prominence in political and commercial life in California.

Practically every commercial farm product grown in California can be successfully produced in Glenn county. Alfalfa is one of the major crops yielding from five to six tons per acre with five cuttings, and the acreage is increasing steadily due to the never-failing demand for dairy products. Glenn is one of the leading counties in dairying in the Sacramento Valley.

A large portion of the beautiful California National Forest and the Orland Project of the United States Bureau of Reclamation are in this county. The Orland Project, of which the city of Orland is the business and geographical center, is the only government irrigation project lying wholly within California. It comprises 20,750 acres, with 146 miles of canals and laterals, 92 miles of which are concrete lined.

One of the largest irrigation districts west of the Rockies is the Glenn-Colusa. Its construction and later improvement entailed a cost of approximately $6,000,000.

Great bands of sheep roam the foothill and mountain ranges and this section produces some of the earliest and best lambs in the state. In Western Glenn are deposits of copper, manganese, sandstone and soapstone. During the World War, large quantities of chromite swelled the county's mineral production. Population: 10,935. Area: 1337 square miles.

Humbolt County — Created May 12, 1853. This county derived its name from Humbolt Bay which was named for Baron Alexander von Humbolt, the eminent scientist, by Captain Ottinger of the ship Laura Virginia.

Known as the "Redwood Wonderland," Humbolt combines every known economic attraction with the advantages of mountain, forest and coast scenery, a world port and a famous highway. Industries range from the growing of flowers to the shipping of lumber and live stock, with butterfat, lumber, wool, beef, fruits and berries as the principal products. For 108 miles this county stretches along the scenic coast of Northern California, separated from Oregon by Del Norte county and with an average width of 35 miles between the Pacific Coast and Trinity. Rhode Island and Delware could be placed within its bounderies and there would be 543 square miles to spare.

Motorists entering from the south over the famous Redwood Highway gradually enter Humbolt's forest of giant redwoods stretching for 75 miles. There are 400,000 acres of redwood timberland. The cutting of timber and its manufacture into lumber give employment to 7,000 men whose annual pay roll check exceeds $10,000,000. Some of the largest lumber mills in the world are located in Humbolt. Stock raising is an important industry. A recent United States farm census gives the county 100,000 head of sheep and 80,117 head of cattle. Humbolt is famed as a dairying district. The county is proud of its port at Eureka which during the past several years has handled $25,000,000 worth of waterborne commerce annually. Population: 43,233. Area: 3575 square miles.

Next: Imperial, Inyo and Kern counties.

FIVE NEW MEASURES FOR FARM PRODUCTS

SACRAMENTO, Sept 19,—(UP)—A series of five important measures dealing with the marketing of agricultural products in California was effective on September 15th following conclusion of the period after which bills passed by the 1935 legislature became effective.

As summarized by the state department of agriculture, the new laws included:

The Thorp milk fair trade practice act—Makes prices illegal that are less than prevailing market prices as determined by 51 per cent of the used; requires written contracts by distributors with producers, showing price and terms; requires filing with director of agriculture of complete record of purchases, sales and costs.

Young fluid milk control act—Sets up procedure for local control board for milk and cream; local control board submits marketing or stabilization plan for approval of state director of agriculture; plan may fix minimum prices for producers.

Manufactured dairy products control act—Sets up procedure for manufacturing milk industry to obtain authority from state director of agriculture to formulate marketing agreements; agreements may fix prices and margins all along the line; establishes standard of fair practice.

California agricultural adjustment act—Sets up procedure to enforce federal AAA agreements and declares that "unfair competition" is to violate federal agreement and license in California; identical with federal act in all particulars except funds and enforcement by state director of agriculture.

California marketing agreement act of 1935—Provides for state agreements and licenses where industries have no federal agreements and licenses and are ineligible for them; provides for coordination with state pro-rate law; requires 75 per cent by number and volume to sign as prerequisite of operation.

Increased Registration Breaks All Records

SACRAMENTO, Sept 19 —(UP)—California threatens to smash all previous automobile registrations this year as a result of a returning confidence which has been reflected by increased automobile sales.

During the first seven months of the year, automobile registrations were only 42,860 below the 1930 12-month record of 1,941,969 pleasure cars.

Registration of all types of vehicles came even closer, hitting 2,139,452 in seven months, against the record of 2,145,474 made in the 12 months of 1931.

The state first exceeded the 1,000,000 registration mark in 1923, when the total reached 1,137,445 of which 1,056,756 were pleasure cars. The first report of the department of motor vehicles, in 1906, showed only 6,428 vehicles of all types were registered in the period March 22, 1905 to June 30, 1906.

Motorists Must Pay Double Value Tax

SACRAMENTO, Sept 19 —(UP)—Motorists must pay a double value tax on their automobiles for the first six months of 1936 as a result of legislative action levying a new state tax in lieu of county and city personal property taxes on vericles.

The state tax becomes effective with sale of 1936 license plates, but it will be necessary for motorists to present certificates showing their city and county taxes for the 1935-36 fiscal year have been paid. The personal property tax already has been levied, so motorists, in addition to paying it until June 30, 1936, will be required to pay a state tax for the calendar year 1936.

Cars will be taxed at the rate of $1.75 per $100 market valuation. The tax will be collected when license plates are issued, and will be in addition to the $3 paid for the plates.

STATE FAIR PROVES FINANCIAL SUCCESS

SACRAMENTO, Sept. 19,—(UP)—While attendance at the 81st annual state fair, which closed recently failed to establish a new record, financial returns exceeded all expectations, the directors announced.

Check of the various turnstiles showed 448,823 persons attended the ten-day exposition. This was 11,006 short of the all-time attendance record, set in 1934. Cool weather in the closing days of the fair was blamed for the failure to exceed last year's figures.

Despite the lower attendance, an increase of approximately $25,000 over last year's receipts was reported by the directors.

More Bonds to Be Sold For Veterans

SACRAMENTO, Sept 19 —(UP)—Sale of a new block of California veterans' home and farm purchase bonds probably will be held late this fall, according to Thomas M. Foley, chairman of the veteran's welfare board.

Approximately $2,000,000 of the $5,000,000 block sold in June is encumbered, and the remainder will be exhausted before the end of the year, officials estimated. Only $5,000,000 of a $30,000,000 bond issue was sold in June.

It has been shown that under the great pressure at ocean depths man becomes very dull mentally.

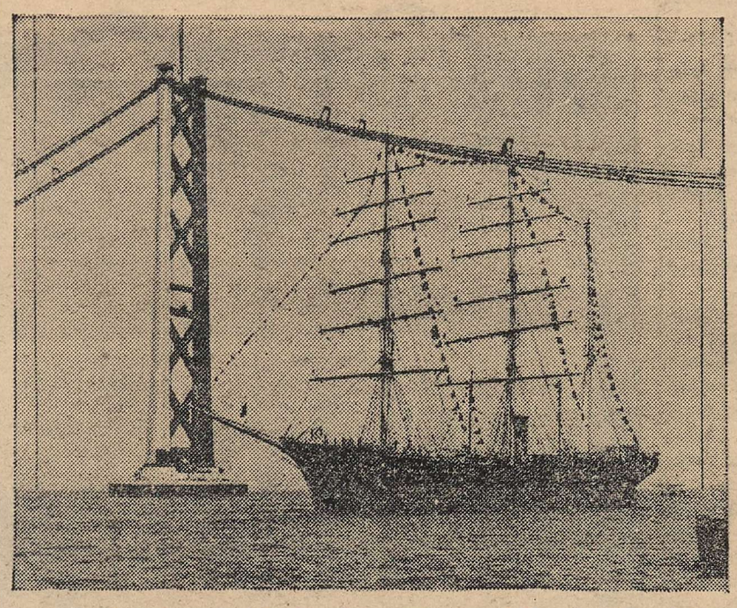
James Tyrell has returned from San Francisco where he took the state bar examinations.

Mrs Sadie Moore of San Francisco is visiting with her sister Mrs. W. B. Gelat at Donner Lake.

Mrs. Jess Maxson of Carson City is visiting with relatives in town this week.

Star of Finland Led the Parade



As part of the annual Harbor day celebration at San Francisco the last of the old square rigged vessels on the bay, the Star of Finland, was decked out in flags and bunting and towed by a tug at the head of the gigantic marine parade. The Star of Finland is the old sailer which it is planned to buy and anchor at the waterfront for use as an old time sea museum. Here the square rigger is passing under the catwalks of the San Francisco-Oakland bay bridge.

Bank Of America Has New Finance Plan

Announcement of a new credit plan for financing the purchase of new and used automobiles on a low-cost basis was made recently by L. M. Giannini, President of Bank of America.

The most novel innovation of the plan is the provision for the issuance of a letter of credit to the prospective automobile purchaser, entitling him to shop for his car as a cash buyer.

"The principles of automobile financing are now sufficiently well established to permit conservative banks to make this service a part of their regular credit facilities," said Giannini.

"We feel that the financing of automobile purchases offers a safe field for the employment of loanable bank funds, and that the credit of the automobile buyer who deals on an installment basis has been established by his financial record in this state.

"Believing that the public is entitled to the best possible service and most liberal terms of credit in financing automobile purchases, we are making our Automobile Letter of Credit plan available to customers and non-customers at all the 425 branches of our bank.

"We anticipate that the public will be prompt in accepting this new, low-cost means of financing the purchase of automobiles, and that sales of cars throughout California will be stimulated accordingly."

Details of the bank's Automobile Letter of Credit plan were explained by C. B. White, manager of the Truckee branch of Bank of America.

"The procedure of this new type of financing is simple," he said. "A prospective purchaser of a new or used car applies at any of our branches for the Automobile Letter of Credit. Knowing the approximate value of the car he plans to trade in, or the amount of the down-payment he wishes to make, it is merely a matter of arithmetic to determine the balance necessary to obtain the car he desires.

"An Automobile Letter of Credit is issued for the amount necessary to complete the purchase. This Letter of Credit is in the hands of the purchaser when he selects his car, and permits him to deal as a cash buyer.

"The bank pays the dealer cash for the net balance due him and the buyer then repays the bank in monthly installments, on a cost basis computed on extremely favorable terms. As he makes the purchase with the status of a cash buyer, he need make his credit information available only to the bank.

"Our new Automobile Letter of Credit Plan already has been announced to the personnel of all branches of Bank of America and has met with an enthusiastic response."

PASSENGER ATTEMPTS SUICIDE ON STAGE

Clarence Letzer a passenger on the westbound Greyhound stage attempted suicide by cutting his wrists with a tobacco can a short distance east of Reno, on Tuesday morning His condition was not discovered until the stage reached Truckee, when he was given medical attention by Dr. J. H. Bernard.

Letzer whose home is in Indianapolis, Ind. was enroute to the home of his sister, Mrs. Gus. Neary of Oakland. In being questioned as to the reason for attempting suicide he stated he had been drinking before he left the east and the passengers annoyed him.

Letzer was taken into custody by Constable Wm. Bottcher and placed in the local jail awaiting word from his sister in Oakland.

Former Resident Visits In Town With Relatives

Mrs. V. V. Manning of Leavenworth, Kansas is on an extended visit with her sister, Mrs. Minne Poole.

Mrs. Manning, the former Elizabeth May, made her home in town for many years and was a graduate of the Meadow Lake Union High School. This is her first visit to Truckee in fourteen years.

Mrs. Manning was a delegate from the state of Kansas to the P. E.O. Sisterhood which convened in Yellowstone Park last week.

Bank of America Advertising Awarded First Place

Bank of America advertising has just been awarded first place for banks in the United States and Canada for the year ending October 1, it was announced today by L. M. Giannini, President of Bank of America.

The award is made by the magazine, Bank-Ad Views, the accepted critic of bank advertising, published by Vincent Edwards and Company, New York. In 1933 Bank of America advertising also won first award and last year captured second place.

California newspapers represent the major media for Bank of America advertising, there being more than 400 dailies and weeklies on the schedule.

For the past 20 years Chas. R. Stuart, Inc., of San Francisco and Los Angeles have acted as Bank of America's advertising agents. L. E. Townsend, is manager of the Bank's advertising department.

County Supt. Inspects Grammar School Quarters

Mrs. Ella M. Austin, county superintendent of schools inspected the temporary grammar school on Wednesday and is well satisfied with the arrangements that the school trustees have been forced to make to hold the classes.

The trustees have recently had a partition placed in the church building to separate the intermediate and primary classes and the steps have been repaired by the ladies aid of the Methodist Church.

No further steps have been taken regarding the new grammar school, the trustees waiting to see if the grammar school project may not be reconsidered, and thus a means open to finance the entire project.

NOTICE

I will not be responsible for any debits contracted by Mrs. Florence Calhoun of Truckee, California, after September 14, 1935.

Signed EARL F. CALHOUN.

Allocation Made For Resettlement Administration

Expansion of farm debt adjustment activities in California was forecast by state WPA officials as the result of President Roosevelt's recent allocation of $2,000,000 to the Resettlement Administration for the defrayal of expenses incurred by members of voluntary farm committees operating in 45 states.

In California there are 57 committees in active operation, none of whose members receive compensation for their services, WPA officials stated, and until the $2,000,000 allocation was made, they were required to bear their traveling and other expenses out of their own resources.

National farm organizations have credited the committees throughout the country with having scaled down 150,000 cases by agreement between debtors and creditors, and with having kept more than half a million people off relief rolls by preventing bankruptcies and foreclosures.

Stressing the need for continuing farm debt adjustment activities in California, WPA officials pointed out that improved price levels for agricultural commodities have made foreclosures a better speculation in the eyes of creditors. As a result, further extension agreements are being refused by many creditors and a large number of farm families are facing the danger of being evicted from their homes.

TRANSIENT RELIEF PROGRAM TO CEASE

Presaging complete liquidation of California's transient relief program by November 1, instructions have been issued by State WPA administrator Frank Y. McLaughlin that no persons shall be accepted for transient service after September 20.

McLaughlin's orders were based on annuoncement from Washington that the special transient fund will be depleted by that date.
